2026 Week 10 Waiver Wire

Revision 1 | 2026-11-10T17:05:50Z

12-team redraft, half-PPR, one starting quarterback. Bids use the original season FAAB budget. Game points equal official standard points plus 0.5 per reception; they are historical results, not projections. Missing weekly rows are not labeled zero. Kicker and defense scoring depends on league rules.

Chicago, Denver, Tampa Bay and Philadelphia are on bye. Makai Lemon is a Week 11 stash, not a Week 10 starter. Fill a starting need before bidding for a stash. Production includes all 136 completed games through Week 9; FAAB bands and candidate priorities are original MFT judgments.

FAAB ranges use your original season budget: 10% is $10 from an original $100 budget. Cap bids at your remaining balance and follow league minimums and increments.

Check these players first

Jordyn Tyson / Tank Dell / Corey Kiner / Seth McGowan / Chigoziem Okonkwo

Running backs

1. Corey Kiner | NE

Reviewed add | Suggested FAAB: 15-25%

A backfield addition whose value depends on current availability ahead of him. Bid for a conditional opportunity, then verify practice and participation before assigning a starting workload. Recorded half-PPR points: W1 1.10, W2 0.00, W3 3.20, W4 0.00, W5 4.40, W6 5.70, W7 1.30, W8 3.80, W9 11.50. W9: 8 carries, 0 targets and 0 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Injury condition: November 10 CBS lists TreVeyon Henderson (Illness; Questionable); Rhamondre Stevenson (Knee; Doubtful). Recheck current participation and final status; the cited label is not a Week 10 ruling.

Report-week opponent: at DET (neutral site)

ESPN via NFL.com (captured Nov 10): 5% rostered; checked on 2026-11-10. Check your league.

2. Seth McGowan | IND

Reviewed add | Suggested FAAB: 3-8%

A speculative depth addition with recent rushing production. Trade discussion is not a completed transaction; keep the bid modest unless confirmed personnel changes create additional opportunity. Recorded half-PPR points: W1 0.50, W2 0.00, W3 1.40, W4 4.30, W5 2.40, W6 2.70, W7 5.30, W8 2.90, W9 10.70. W9: 6 carries, 1 targets and 1 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: vs. MIA

ESPN via NFL.com (captured Nov 10): 21% rostered; checked on 2026-11-10. Check your league.

3. Audric Estimé | NO

Reviewed add | Suggested FAAB: 8-15%

The latest carry volume warrants attention while the backfield remains unsettled. Confirm which competing runners are available before projecting the same allocation into the next game. Recorded half-PPR points: W6 7.90, W9 14.20. W9: 15 carries, 1 targets and 1 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: vs. CAR

ESPN via NFL.com (captured Nov 10): 9% rostered; checked on 2026-11-10. Check your league.

4. Tyler Goodson | DAL

Reviewed add | Suggested FAAB: 2-5%

A depth addition with recent rushing involvement. His own availability and the starter workload matter more than the most efficient stretch of one game. Recorded half-PPR points: W3 2.20, W4 1.20, W6 1.40, W7 3.80, W8 4.30, W9 7.70. W9: 12 carries, 1 targets and 0 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Injury condition: November 10 CBS lists Tyler Goodson (Knee - ACL + MCL; Out). Recheck current participation and final status; the cited label is not a Week 10 ruling.

Report-week opponent: vs. SF

ESPN via NFL.com (captured Nov 10): 1% rostered; checked on 2026-11-10. Check your league.

5. Emmett Johnson | KC

Reviewed add | Suggested FAAB: 3-7%

A bench back with recorded involvement and contingent upside. His role can matter without supplying a predictable starter workload, so match the bid to available bench space. Recorded half-PPR points: W1 7.80, W2 4.50, W3 1.70, W4 1.50, W6 3.40, W7 2.70, W8 22.80, W9 9.40. W9: 6 carries, 0 targets and 0 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: at ATL

ESPN via NFL.com (captured Nov 10): 24% rostered; checked on 2026-11-10. Check your league.

Wide receivers

1. Jordyn Tyson | NO

Reviewed add | Suggested FAAB: 10-18%

A returning receiver whose initial involvement creates room for growth. Add for the possibility of a larger role while recognizing that the current sample does not establish a full workload. Recorded half-PPR points: W9 3.00. W9: 0 carries, 5 targets and 4 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: vs. CAR

ESPN via NFL.com (captured Nov 10): 39% rostered; checked on 2026-11-10. Check your league.

2. Tank Dell | HOU

Reviewed add | Suggested FAAB: 10-20%

The latest receiving production supports a serious addition. Repeated routes and targets will be more informative than assuming the last touchdown and yardage total will recur. Recorded half-PPR points: W7 5.00, W9 18.50. W9: 0 carries, 9 targets and 4 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: at CLE

ESPN via NFL.com (captured Nov 10): 23% rostered; checked on 2026-11-10. Check your league.

3. Caleb Douglas | MIA

Reviewed add | Suggested FAAB: 5-10%

Receiving involvement offers a practical route to deeper-lineup value. Seek repeated participation and targets rather than treating one successful game as a guaranteed floor. Recorded half-PPR points: W1 11.90, W2 2.90, W7 20.00, W8 6.30, W9 10.00. W9: 0 carries, 8 targets and 6 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: at IND

ESPN via NFL.com (captured Nov 10): 27% rostered; checked on 2026-11-10. Check your league.

4. Jordan Watkins | SF

Reviewed add | Suggested FAAB: 3-7%

A low-cost receiver to monitor for repeated routes and targets. Returning teammates can change the opportunity, so treat the recent production as evidence to review rather than a permanent role. Recorded half-PPR points: W3 7.00, W6 2.70, W7 7.10, W9 16.60. W9: 0 carries, 4 targets and 4 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Injury condition: November 10 CBS lists Mike Evans (Achilles; Questionable). Recheck current participation and final status; the cited label is not a Week 10 ruling.

Report-week opponent: at DAL

ESPN via NFL.com (captured Nov 10): 1% rostered; checked on 2026-11-10. Check your league.

5. Omar Cooper | NYJ

Reviewed add | Suggested FAAB: 3-7%

A roster option with useful receiving involvement but variable weekly production. Check the competing receivers and current participation before assuming the next target distribution resembles the last one. Recorded half-PPR points: W1 3.50, W6 19.30, W7 20.00, W9 9.80. W9: 0 carries, 11 targets and 8 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Injury condition: November 10 CBS lists Garrett Wilson (Concussion; Questionable). Recheck current participation and final status; the cited label is not a Week 10 ruling.

Report-week opponent: vs. BUF

ESPN via NFL.com (captured Nov 10): 58% rostered; checked on 2026-11-10. Check your league.

6. Makai Lemon | PHI

Bye-week stash | Suggested FAAB: 2-6%

A future-week receiving stash. Philadelphia has no Week 10 game, so this addition cannot fill an immediate starting vacancy; reconsider the passing personnel before Week 11. Recorded half-PPR points: W1 1.00, W2 1.40, W3 4.40, W4 4.20, W5 6.80, W6 3.40, W7 16.20, W8 8.70, W9 9.10. W9: 0 carries, 9 targets and 6 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Injury condition: November 10 CBS lists Jalen Hurts (Calf; Injured reserve). Recheck current participation and final status; the cited label is not a Week 10 ruling.

Report-week opponent: Bye; stash for a later week

ESPN via NFL.com (captured Nov 10): 55% rostered; checked on 2026-11-10. Check your league.

7. Van Jefferson | WAS

Reviewed add | Suggested FAAB: 1-4%

A deeper-league option after recent receiving work. Several teammates compete for targets, and another useful game would provide stronger support than a single scoring appearance. Recorded half-PPR points: W8 0.00, W9 14.30. W9: 0 carries, 7 targets and 5 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: at NYG

ESPN via NFL.com (captured Nov 10): 0% rostered; checked on 2026-11-10. Check your league.

Quarterbacks

1. Aaron Rodgers | PIT

Reviewed add | Suggested FAAB: 1-3%

A matchup-based quarterback replacement for a specific lineup need. Use current participation and the recent passing sample, while retaining flexibility if a stronger option becomes available. Recorded half-PPR points: W1 12.54, W2 3.98, W3 22.68, W4 21.96, W5 22.00, W6 16.02, W7 13.08, W8 4.88.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: at CIN

ESPN via NFL.com (captured Nov 10): 33% rostered; checked on 2026-11-10. Check your league.

Tight ends

1. Chigoziem Okonkwo | WAS

Reviewed add | Suggested FAAB: 4-9%

Recent receptions and targets support a tight-end addition. Continued involvement would be more dependable than projecting a touchdown, and the next target distribution remains open. Recorded half-PPR points: W1 2.60, W4 1.50, W5 8.00, W6 10.40, W8 2.20, W9 8.60. W9: 0 carries, 7 targets and 6 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Injury condition: November 10 CBS lists Terry McLaurin (Knee; Injured reserve); Chigoziem Okonkwo (Hip; Questionable). Recheck current participation and final status; the cited label is not a Week 10 ruling.

Report-week opponent: at NYG

ESPN via NFL.com (captured Nov 10): 14% rostered; checked on 2026-11-10. Check your league.

2. Darren Waller | CAR

Reviewed add | Suggested FAAB: 2-5%

A tight-end alternative with a productive recent outing. Compare that result with the broader usage sample rather than budgeting for the same scoring total every week. Recorded half-PPR points: W1 3.80, W2 16.80, W3 7.60, W4 5.10, W6 0.00, W7 11.50, W8 1.60, W9 19.00. W9: 0 carries, 10 targets and 8 catches.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: at NO

ESPN via NFL.com (captured Nov 10): 8% rostered; checked on 2026-11-10. Check your league.

Kickers

1. Chris Boswell | PIT

Kicker stream | Suggested FAAB: 0-2%

An inexpensive kicking option returning from a bye. Scoring chances follow possessions and how drives finish; avoid paying for a precise point projection.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: at CIN

Yahoo via FantasyPros (Nov 9): 24% rostered; checked on 2026-11-10. Check your league.

2. Matt Gay | LV

Kicker stream | Suggested FAAB: 0-2%

A low-cost kicker for a current lineup vacancy. Field-goal opportunities depend on drive outcomes, so preserve flexibility for weather and final team availability.

Main risk: Target share, game script and availability can change. Check your actual league and remaining budget. Historical production is not a forecast.

Report-week opponent: vs. SEA

Yahoo via FantasyPros (Nov 9): 38% rostered; checked on 2026-11-10. Check your league.

Team defenses

1. Baltimore Ravens | BAL

Defense stream | Suggested FAAB: 0-2%

An original low-cost stream against LAC. Matchup and recent pressure are more useful than chasing defensive touchdowns; scoring depends on league rules.

Main risk: Turnovers and defensive touchdowns are volatile. A favorable opponent does not guarantee points.

Report-week opponent: vs. LAC

ESPN via NFL.com (captured Nov 10): 47% rostered; checked on 2026-11-10. Check your league.

2. Green Bay Packers | GB

Defense stream | Suggested FAAB: 0-2%

An original low-cost stream against MIN. Matchup and recent pressure are more useful than chasing defensive touchdowns; scoring depends on league rules.

Main risk: Turnovers and defensive touchdowns are volatile. A favorable opponent does not guarantee points.

Report-week opponent: vs. MIN

ESPN via NFL.com (captured Nov 10): 19% rostered; checked on 2026-11-10. Check your league.

Deep leagues and stashes

Availability observations are dated and league-specific. Injury-dependent backfield roles need a fresh check before kickoff; trade rumors are not completed transactions. Missing statistics and availability remain unknown.

Superflex adjustment

Prioritize available starting quarterbacks more highly when two can start. These one-QB bids are not superflex valuations; compare the expected lineup improvement with your remaining budget.

Claim strategy

Submit ordered alternatives for the same drop slot. Scale the high end of a bid to an actual starting need; a bench stash belongs near the low end. Preserve budget for later weeks. Check deadline, minimum bid and tie-breaking rules. Recheck all injury-dependent claims before waivers process.

What changed

Fresh November 10 official roster/statistics and CBS injury snapshot. November 9 NFL.com ESPN observations and FantasyPros kicker observations captured November 10; no prior edition is rewritten.
