The offense is dynamic and promises to be entertaining throughout the entire season. With such firepower, they can score against any opponent. However, if the defense can tighten up and improve their performance, this team could become a serious contender for a playoff spot. The potential is there for a deep run if both sides of the ball align perfectly.

Changes This Year: The Cowboys fortified their roster in 2025 with key moves including signing OT La'el Collins and OG Geron Christian, while extending OT Tyler Smith through 2030. They added several players to their practice squad such as QB Will Grier and CB Robert Rochell to maintain depth. The team traded star LB Micah Parsons for NT Kenny Clark but continues to rely on a strong core led by Dak Prescott at QB.

Rallying to beat the Giants certainly shows resilience, but the Broncos still have some concerns to address. A significant issue is their tendency to start slowly on offense, which puts unnecessary pressure on the team as games progress. Finding a way to kickstart their attack from the first whistle would alleviate the stress on their defense and contribute to

Def. Coord: Vance Joseph

Changes This Year: The Broncos made key additions like signing RB Deuce Vaughn and extending LB Nik Bonitto through 2029. They also promoted several players such as FB Adam Prentice and QB Sam Ehlinger to the active roster while managing injuries to starters like Dre Greenlaw. The team continues its rebuilding effort with depth moves across offense and defense as they seek consistency in 2025.
